STEELCASE 6000 SERIES

6000 Series desks give the word value new significance—for here is a line of fine office furniture that emphasizes quality, but does not ignore economy. It offers a combination of style, durability, convenience and sound construction that is seldom found at such modest prices. While the units illustrated here offer a starting point for comparison, the best way to appreciate the real value of this furniture is to visit our showrooms. Let us show you how effectively and economically it may help solve your office problems. Stop in any time.

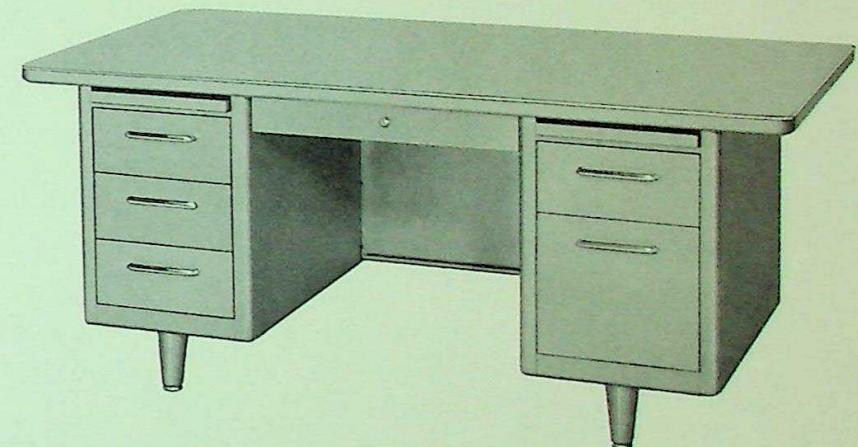

You're always welcome.

Executive desks

FOR THE ORGANIZED ORGANIZATION MAN...

An organization can be one man . . . or hundreds. But, because every organization reflects the efficiency of its management, executives must have desks that suit their personal patterns of work. Steelcase 6000 Series desks provide generous work space, convenient and immediately accessible storage, with personalized refinements and appointments that help busy men meet their responsibilities more effectively. Choice of top sizes, flexible drawer arrangements, colorful acrylic finishes—all at attractive prices.

Convertibles

ADAPT THEMSELVES TO YOUR DEMANDS...

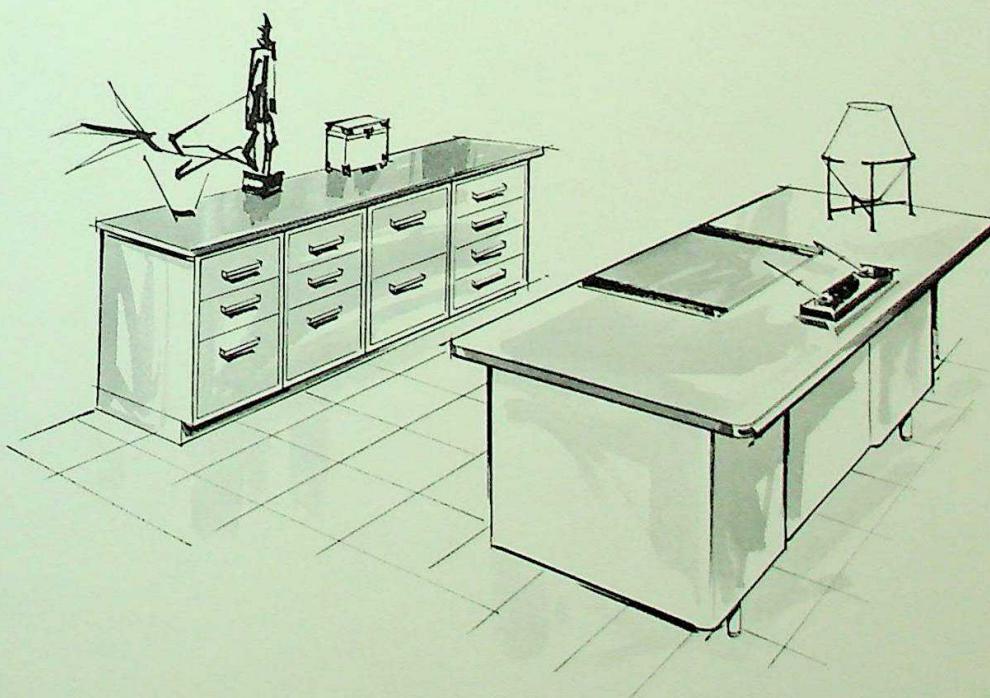

This Convertible assembly is made up of a 660300-SPR single pedestal desk joined by a 60" x 19 1/4" Convertible top to two 615-2F cabinets. Pedestal may be positioned either right or left; many other arrangements possible. To realize package ordering economy, order as package 60C60.

... that's why *they're* in such demand! They put every square inch of expensive office space to use . . . adding work surface and storage in very little floor area, while personalizing a work station for greater employee efficiency. And Convertibles are versatile, for they can be quickly rearranged or moved from one desk to another as work assignments change. Steelcase makes "package" groupings, or you can create custom assemblies from the wide variety of cabinets and tops. All drawers are interchangeable, shelves are adjustable, different unit heights may be obtained by adding or removing toe bases, locks are available. And Convertibles are coordinated with desks in design, scale and color to retain the harmony of your office decorating theme!

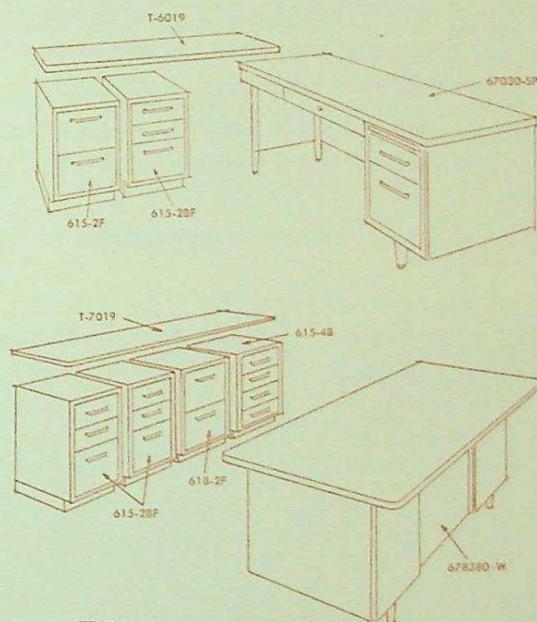

Packaged economy...

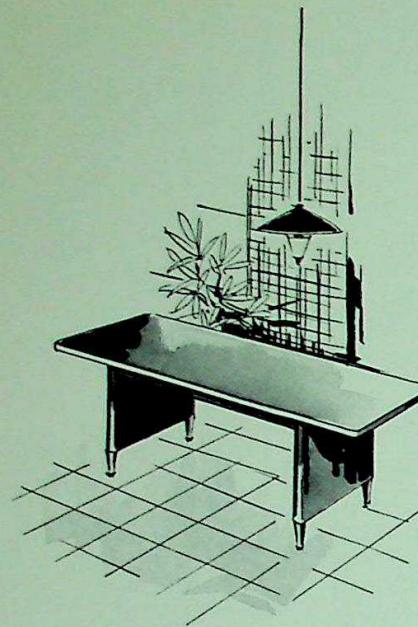

Steelcase's 6000 Series gives more value per dollar than any other comparable desk line—and you can enjoy even greater economy by selecting one of the packaged Convertible and credenza assemblies (there are seven of each)! The drawer and shelf units are the same as those offered separately and have been made up into combinations so varied it's easy to select the ones best suited to your needs. Top sizes range from 37 1/2" to 70" in length.

Convertible package 60D60 is made up of a 615-2F cabinet with two file drawers, a 615-2BF unit with one file drawer and two box drawers and T-6019 top 60" x 19 1/4". Desk is model 660300-SPR. Creates the impression of two desks while providing one continuous work surface.

Credenza shown is package 60P70—using two 615-2BF cabinets with two box drawers and one file drawer each, a 615-2F two-drawer filing cabinet and 615-4B unit with four box drawers. The top measures 70" x 19 1/4" and can be ordered as T-7019. Desk shown is 67380-W.

Heavy-duty office tables... designed for work!

Every office needs tables—conference tables, work tables, office machine tables, general-use tables. A 6000 Series table is durably constructed for years and years of use—as you can always expect when Steelcase makes it. The plastic

laminate tops can take a lot of wear from office machines, the weight of heavy books—in fact, all the punishment a busy office can give it. Of course, tables are compatible with other 6000 Series units in proportion, style and color.

66030-PET—This versatile office table can be used for so many purposes. In a free-standing position it permits seating on both sides and at both ends. In any location it offers extra working space for maps, charts, blueprints—any spread-out project. With adjustable stainless steel glides. 66030-PET, same, with drawer.

Because Steelcase makes it...

THE 6000 LINE HAS TOP-QUALITY FEATURES

YOU'D NEVER EXPECT AT THE PRICE!

Hardware. Especially designed to match the beauty of the 6000 Line. Made of durable, handsome anodized aluminum. Greater width assures easier drawer operation. Concealed fastenings.

Pedestal construction. 6000 Series pedestals are among the strongest made: one-piece wrap-around shell is reinforced by three vertical uprights with spot-welded drawer channels. Sound deadened.

TOPS: 6000 tops are one-piece steel construction, reinforced with box channels extending the full length of the top for maximum rigidity. All tops have rounded edges and rounded corners. The protective edge binding is stainless steel . . . will not soil skirt or blouse. Handsome plastic laminate tops are available in a variety of smart patterns to harmonize with other Steelcase colors.

ACRYLIC FINISHES: All enamels used in creating the gleaming finishes for the 6000 Series are the new acrylic. The new acrylic finish is based on an acrylic resin that is thermosetting (converted to an insoluble coating by heat) rather than thermoplastic (subject to softening by solvents). The combination of the acrylic resin finish, the Duridine four-stage preparation process and superior baking processes, results in a finish that is resistant to organic solvents, corrosions, staining, marring, scuffing and softening at high temperatures. It is a finish superior in resistance to the effects of everyday use and normal maintenance. Of course, all Steelcase's brilliant, office-sparkling colors are available.

Locks and center drawers are standard on all desks.
